NORTEMPRESA

ADVANCED BEAUTY & PERFUME MANUFACTURING

With over **20 years of activity** and based in Braga, Nortempresa is nowadays recognized as a **strategic manufacturer of reference** in the international **luxury perfumery and cosmetics** ecosystem.

The company stands out for its combination of **industrial excellence, technical expertise**, and a **continuous focus on innovation**, ensuring that brands have a solid, rigorous, and technically distinguished partner.

With its positioning as an **“Advanced Beauty & Perfume Manufacturing”**, NORTEMPRESA presents itself as a new industrial generation platform specializing in **research, development**, and **advanced manufacturing of fragrances**, perfumery products, and cosmetic formulations.

Our work combines science, engineering, technology, and operational precision, ensuring high value-added solutions for national and international premium brands.

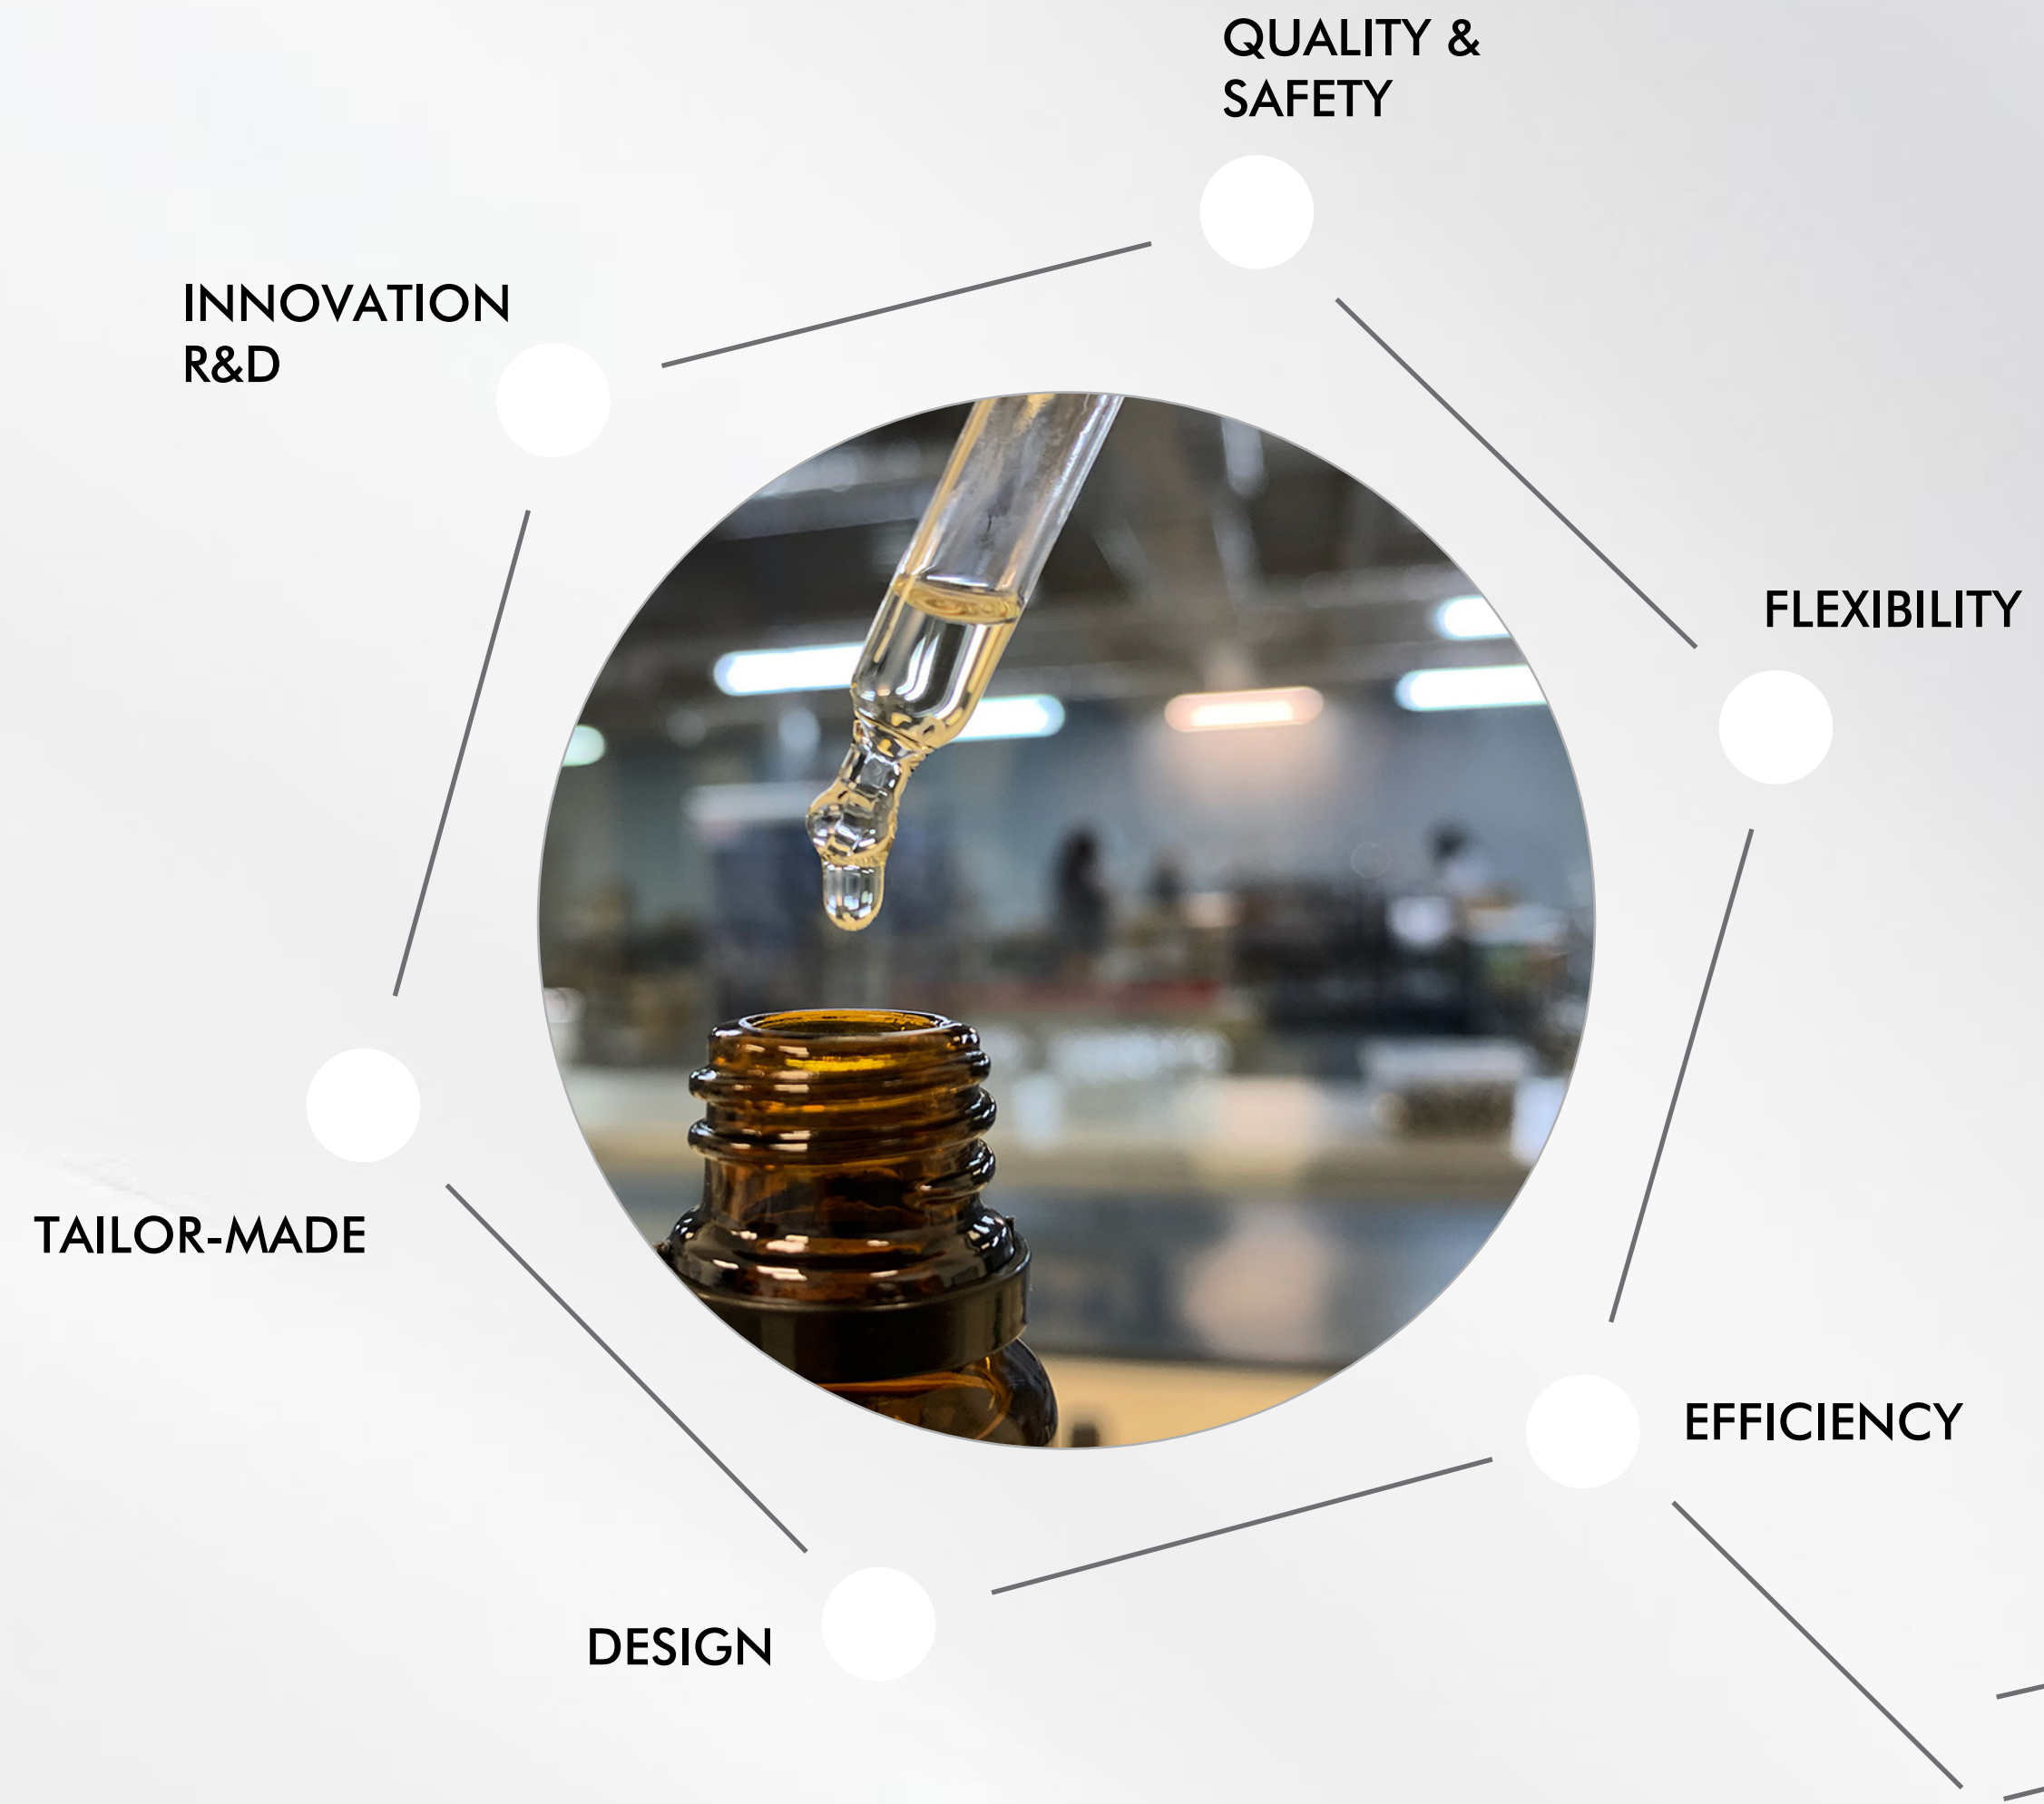

DIFFERENTIATED INDUSTRIAL CAPABILITIES

Nortempresa has developed robust skills that enable it to transform **concepts into final products** with complete control over all stages of the process:

- Technical development and formulation
- Filling and final packaging
- Quality control and technical validation
- Regulatory compliance
- Industrialization and scalability

We continuously invest in **automation, advanced machinery, production technology** and **full digitalization processes**, strengthening our efficiency, traceability, and responsiveness to the demands of luxury markets.

VERTICALIZED MODEL RIGOR, CONFIDENTIALITY, AND TOTAL CONTROL

Nortempresa runs a **fully integrated operating model**, bringing all departments together under the same structure, which allows it to **offer a turnkey service**, including:

- Research and Development
- Development of fragrances and cosmetic formulations
- Market research and packaging design
- Component management and supply
- Industrial production and filling
- Laboratorial testing and technical validation
- Regulatory Affairs
- Specialized technical consulting

This model guarantees **speed, consistency, industrial secrecy**, and **total control**, creating ideal conditions for the development of sophisticated, complex, and technologically advanced products.

ADVANCED BEAUTY & PERFUME MANUFACTURING

Nortempresa specializes in the **development and production of all types of cosmetic products**, ranging from conventional formulations to highly innovative and technologically demanding solutions.

Our technical expertise in cosmetics is based on two fundamental pillars:

NEW GENERATION TECHNICAL DEVELOPMENT

Our R&D department combines advanced chemistry, ingredient's science, and cosmetic engineering to develop formulations for:

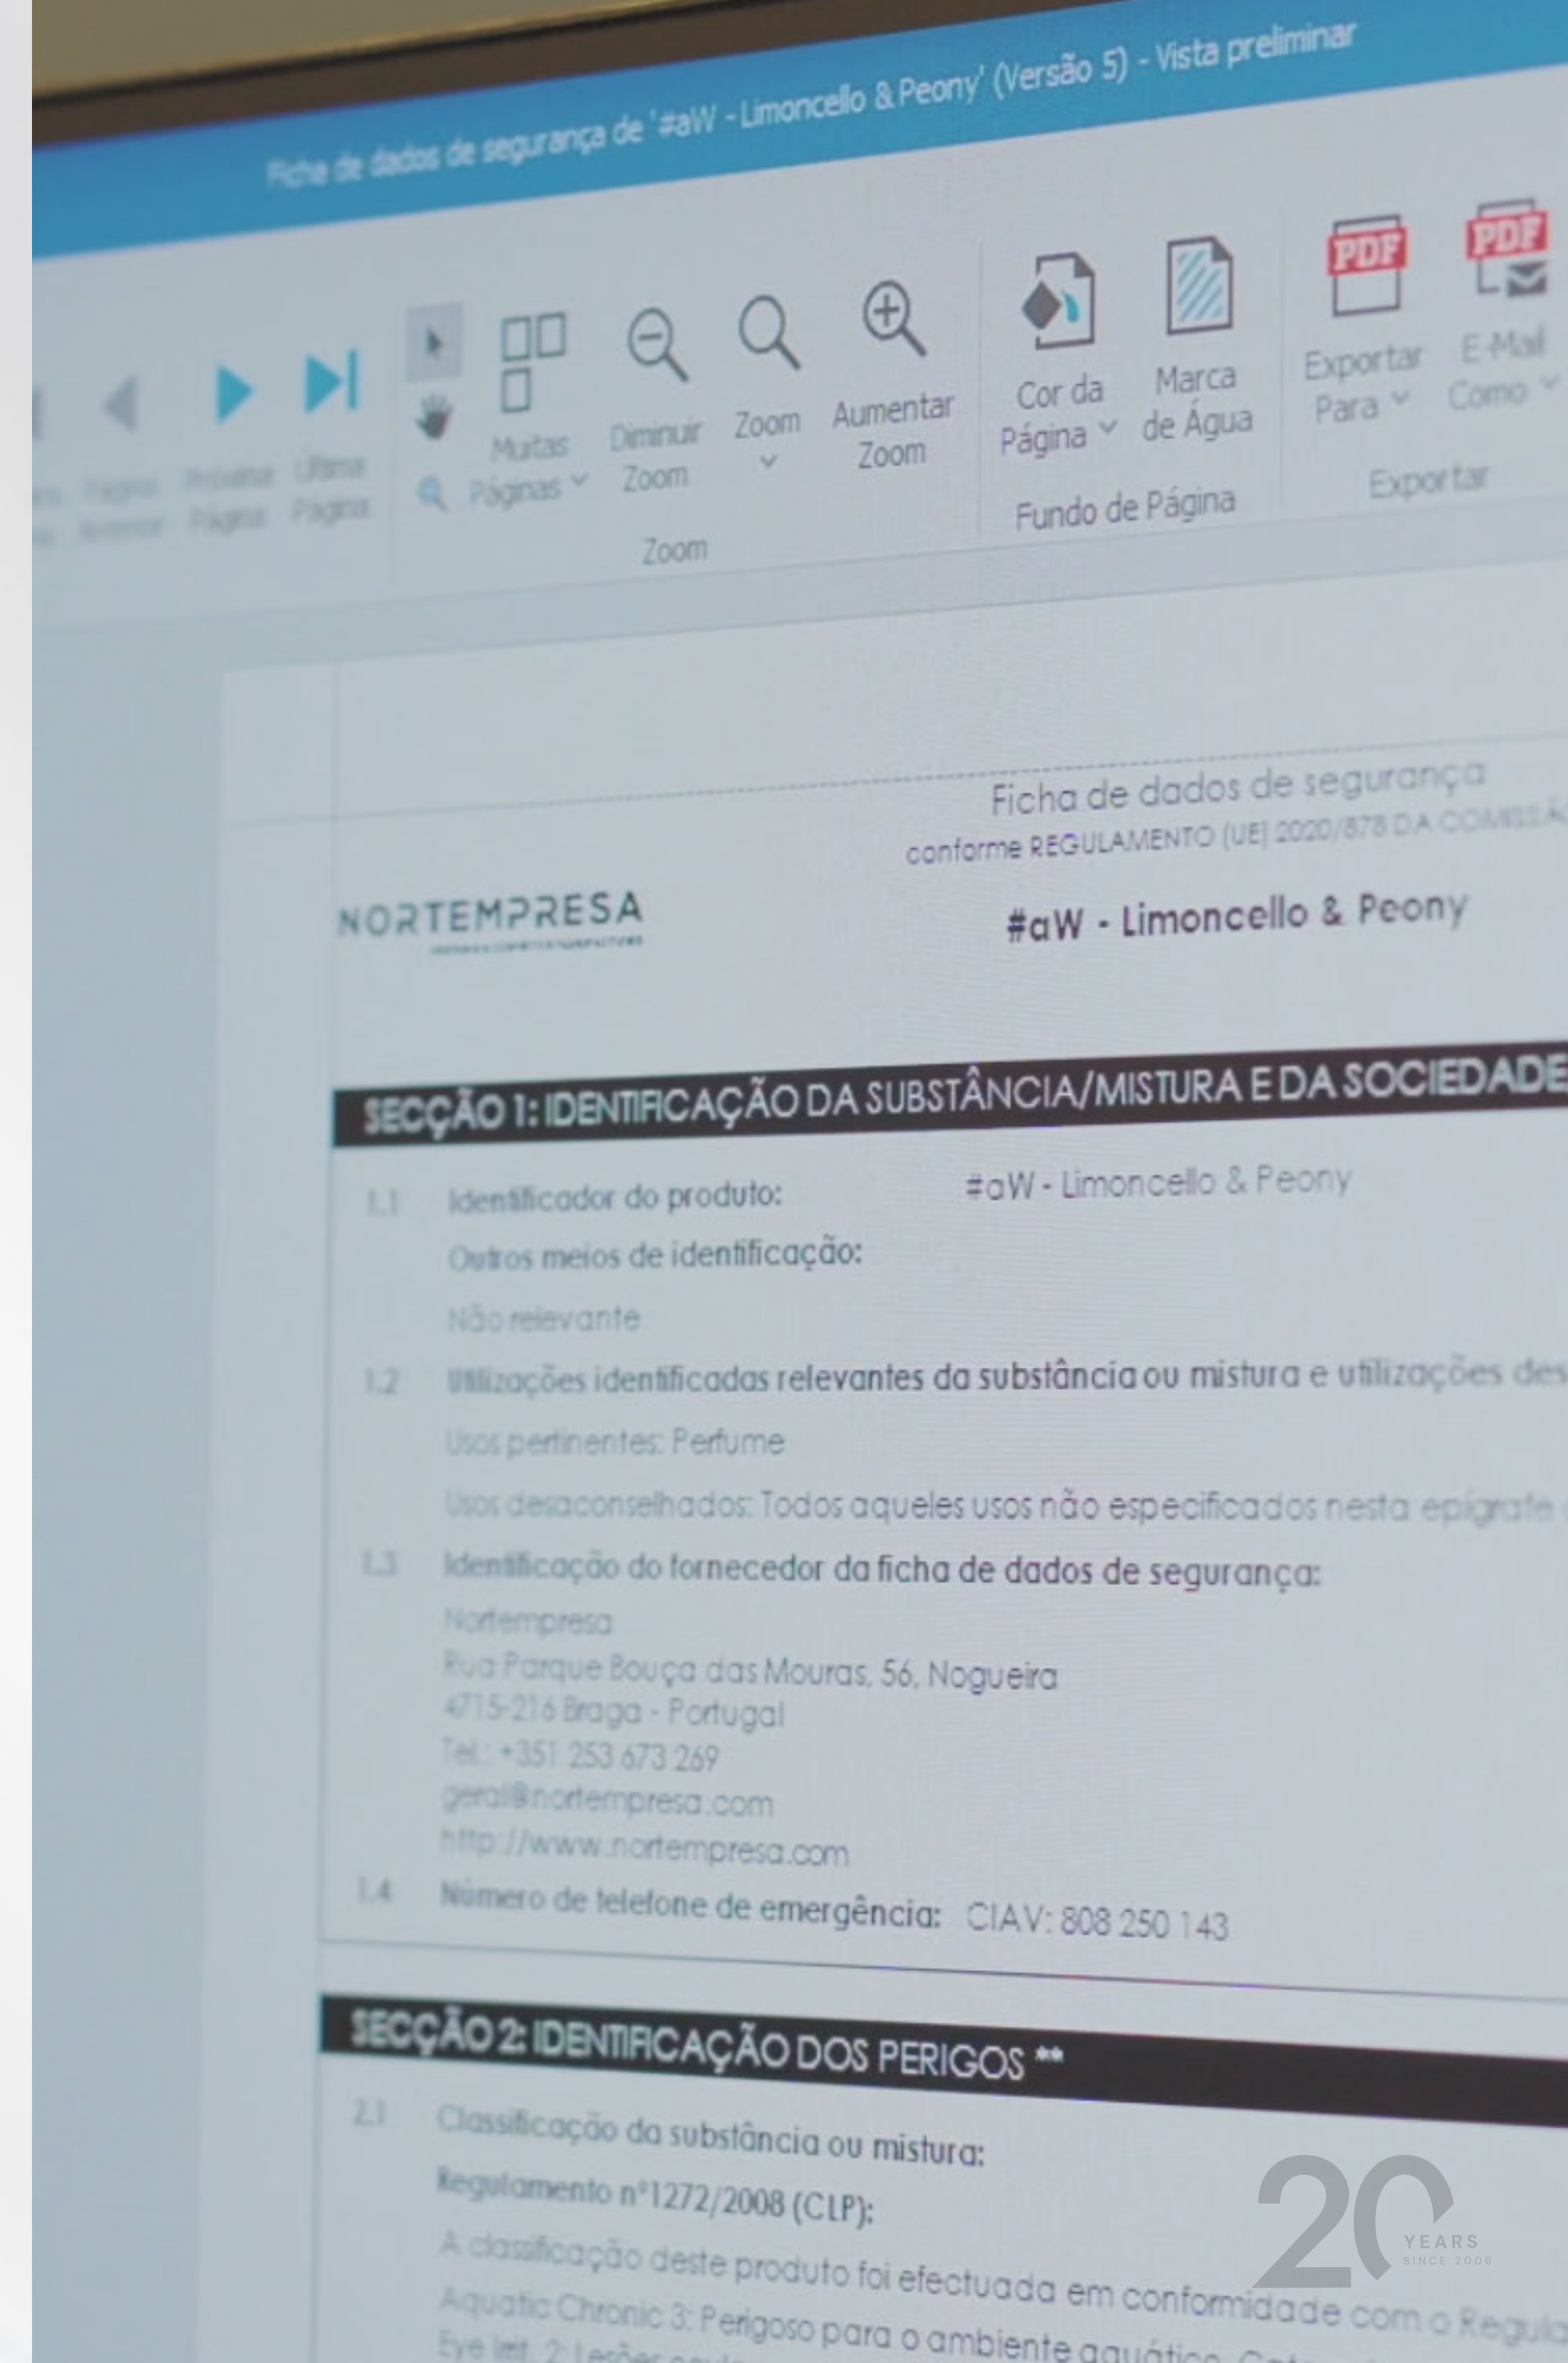

- **Skin care:** serums, creams, lotions, facial oils, masks, anti-aging treatments, antioxidants, moisturizers
- **Face care:** toners, cleansers, exfoliants, emulsions, essences
- **Hair care:** shampoos, conditioners, masks, leave-ins, hair serums
- **Body care:** body creams, gels, oils, exfoliants, moisturizers
- **Personal hygiene:** shower gel, liquid soaps, intimate care, deodorants
- **Premium sensory products:** innovative textures, encapsulated systems, structured gels, light or rich emulsions
- **Hotel amenities**

We develop our own formulations and fully customized projects, adjusting texture, sensory properties, performance, claims, and positioning to ensure differentiation in the market.
